

Ruby .chr and .ord

Returns a string containing the character represented by the int's value according to encoding

```
2.7.0 :001 > 97.chr
=> "a"
2.7.0 :002 > 210.chr
=> "\xD2"
```

Returns the integer ordinal of one character string

```
2.7.0 :003 > 'a'.ord
=> 97
2.7.0 :004 > ';' .ord
=> 59
```
