

# Mimemagic (0.3.10) Install Error Bundler cannot continue

---

An error occurred while installing mimemagic (0.3.10), and bundler cannot continue. Make sure that 'gem install mimemagic -v '0.3.10' --source 'https://rubygems.org/' succeeds before bundling'

Install shared-mime-info

```
brew install shared-mime-info
```

bundle install

```
bundle install
```
