

# Ruby Model validation date checker

---

```
validate :start_date_is_bigger_than_end_date?  
  
def start_date_is_bigger_than_end_date?  
  return if start_date.blank? || end_date.blank?  
  if start_date >= end_date  
    errors.add(:start_date, 'must be smaller than End Date')  
  end  
end
```
